

Roman Research Cards

Cut apart the cards and research to find the answers to the questions asked. Write the answer in the blank card that matches the Roman numeral of the question being answered.

These cards work nice in a lapbook. Either use a pocket made from a sealed envelope cut in half or a half size ziploc bag for the cards, and you have a interactive element for your lapbooks.

<p>Name 5 countries that were once part of the Roman Empire.</p> <p>I</p>	<p>Who were the “barbarians” who conquered Rome?</p> <p>II</p>
